

# Responsible Materials Procurement Policy Statement

---

**This statement sets out Admiral Scaffolding Group's strategic commitment to the procurement & management of materials.**

Admiral Scaffolding Group purchases products which mainly are hired out over longer period of times to reduce their environmental impact. Admiral also ensure they only use suppliers who are fully compliant with legislation and well managed.

## **Forest Product Procurement**

Our intent is to source all forest products from Forest Certification Assessment Guide and World Wide Fund for Nature approved sources.

To achieve this we only procure forest products from FSC-Certified suppliers.

Office paper procured for any Admiral Scaffolding Group office or home working environment, has to be both recycled and carbon neutral.

## **For and Behalf of the Board**

**Terry Withers**  
Managing Director  
July 2021

## **Other Material**

As a company we want to ensure all materials purchased to be used in our Yard or onsite are certified as being responsibly sourced through credible, independent third party certification, where possible.

Schemes recognized by Admiral Scaffolding Group include but are not limited to BES6001, Eco-Reinforcement & ISO14001.

## **Training and Supply Chain Management**

Admiral Scaffolding Group, continually train staff on how to meet the requirements of this policy in accordance with their role.

All companies within the group also are kept abreast of any industry updates or changes and reflect these in our policies which are constantly updating.
